

ENGADIN'S HIDDEN GEM

YOUR SAMEDAN BATHING RITUAL

Wander a maze of rooms akin to a mountain labyrinth and discover a world full of different bathing and steam rooms. Your bathing ritual begins in the mountain spa. Maze-like rooms and alcoves are waiting to be explored. One floor higher, the cleansing ritual begins in the herbal steam bath heated to 40°C. After the fragrant herbal steam opens your pores, use the exfoliating gloves to exfoliate your skin, and visit the hot steam room, which cleanses, detoxes and purifies the body. The heated relaxation room that follows invites you to unwind. The rooftop bath with its stunning views of the Grisons Alps is the perfect way to end your bathing ritual.

The Mineralbad & Spa Samedan is located in the heart of Samedan, built directly onto the listed church in the main square.

It's the first vertically built mineral spa in Switzerland. In addition to the vertical layout of the baths, the spa is characterised by Swiss architects Miller & Maranta's unique design: all the spa rooms, from the pools to the walls and ceilings, are decorated with glazed mosaic tiles. Different types of interior and exterior views, natural light and lighting effects create a mystical atmosphere. Guests bathe in mineral water drawn straight from our own spring, whose waters have healing properties.

The warmth of the Swiss pine massage sticks and the Engadin Swiss pine massage oil penetrate deep into the muscle layer and improve circulation throughout the whole body.

The treatment promotes energy flow and relieve tension and blockages.
